Month

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and specifications of your diversion or storage works.) It is proposed to drill, case,develop an irrigation well at the location shown on the supportingState manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.map.

9. Estimated cost of works \$10,000.00

10. Estimated time required to construct works 3 years

11. Remarks This well was drilled to supplement the flow of "Lund Spring."
Unfortunately the well's delivery is very small, which means a small
pro-ration to owners of the Lund Irrigation Co.

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening and an air line for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times. "A substantial weir or other type of measuring device must be installed immediately and a record of the periods of time the pump is running as well as the measurements of water used must be kept by the permittee and forwarded monthly to the Division of Water Resources."

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 1.0 cubic feet per second, but not to exceed a yearly duty of 3.0 acre-feet per acre of land irrigated from any and/or all sources.

Actual construction work shall begin on or before June 7, 1968

Proof of commencement of work shall be filed before July 7, 1968

Work must be prosecuted with reasonable diligence and be completed on or before June 7, 1969

Proof of completion of work shall be filed before July 7, 1969

Application of water to beneficial use shall be made on or before June 7, 1972

Proof of the application of water to beneficial use shall be filed on or before July 7, 1972

Map in support of proof of beneficial use shall be filed on or before July 7, 1972

Commencement of work filed Aug 5, 1968

Completion of work filed Aug 5, 1968

Proof of beneficial use filed SEP 10 1973

Cultural map filed SEP 10 1973

Certificate No. 8254 Issued 10-6-76
